STAT

Dear [redacted]

How nice to hear from you and to be brought up to date on your success and [redacted] too. It seems like only yesterday that we served as shipmates on the HANSON. In spite of your kind remarks about your thoughts then of my future, I know that neither one of us ever considered my being named Director of Central Intelligence!

Thanks so much for your thoughtful note. Warm regards and best wishes.

Yours,

STANSFIELD TURNER
Admiral, U.S. Navy
